Shaping the future of interleaving paper with Craft's technology.

<Our Experience and Expertise>

Craft Co., Ltd. has been acquiring a large following among stainless steel manufacturers and coil centers as a company specializing in the manufacture and sales of interleaving paper for the past 30 years in Japan. We recently formed a **partnership** with a leading paper manufacturer in Taiwan to create a system with which we can deliver "inexpensive, high quality interleaving paper quickly and in small lots". In June of 2012, we established Craft Co., Ltd. Taipei Branch in Taipei, and we are continually strive to offer "trustworthy" and "detailed" service to stainless steel manufacturers and coil centers in Taiwan.

<Taipei Branch>

Craft Co., Ltd. Taipei Branch

Japan President: Yuji Abe
Founded: April, 1974

Customer's Challenge

Stainless steel manufacturers and coil centers in Taiwan currently import interleaving paper from distant overseas paper manufacturers in Europe and USA. They generally purchase large quantities of 3 to 6 months' worth in container units and must diligently keep track of their stock.

However, the following problems exist in the above import system:

- (1) High purchasing costs must be covered at one time.
- (2) There is a large burden in managing the quality and safety of stock.
- (3) Orders must be submitted several months in advance.
- (4) We've heard that the service related to quality and the like may be insufficient because the paper manufacturers are overseas.

There are many challenges facing customers in Taiwan such as delays in service from distant suppliers and difficulties in mutual communication.

Craft's Technology/Customer Benefits

We have partnered with Union Paper Corporation, the first interleaving paper manufacturer in Taiwan, which is located in Yunlin County near Taichung, Tainan, and Kaohsiung. We offer the following advantages in products, technology, and service:

- (1) Our high quality (bleached interleaving paper) is competitive with foreign suppliers.

- (2) We can handle orders for interleaving paper matching customer specifications.
- (3) We can handle orders for small lots (minimum lot of 5 t/ order).

We accept orders one month in advance.

We also offer the following benefits to our customers:

- (1) Since you can purchase only the amount you need, you can cut down on purchasing costs.
- (2) We promise you detailed Japanese-style service as well as thorough quality management.

Our Innovation

In order to maintain the high quality of our interleaving paper, we engage in solid communication with our customers by providing regular quality specification reports. We also strive to offer high quality interleaving paper that you can rely on by partnering with an external analysis institution.
